PROFESSIONAL SUMMARY

Aspiring web developer and BS Information Technology graduate (Class of 2027) from Isabela State University with hands-on experience building responsive, accessible websites and a published cross-platform application. Comfortable across the stack — from clean HTML, CSS, and JavaScript interfaces to Django REST APIs and PostgreSQL databases. Known for clear communication, attention to detail, and end-to-end project ownership.

TECHNICAL SKILLS

Languages	HTML5, CSS3, JavaScript, SQL, Dart
Frameworks	React, Flutter, Django REST Framework, Bootstrap, Tailwind CSS
Tools & Platforms	Git & GitHub, VS Code, Figma, PostgreSQL, Netlify, Vercel, Canva, Google Play Console
Design	Responsive design, mobile-first prototyping, UI design
Strengths	Clear communication, problem solving, attention to detail, collaboration & time management

EXPERIENCE

Freelance Web Developer — *Independent* 2024 – Present

- Developed and launched portfolio and small-business websites for local clients.
- Created simple brand systems, page layouts, and mobile-first prototypes.
- Managed projects end to end, from requirements gathering to deployment.

ISU NSTP Attendance App — *Capstone Project, Isabela State University* 2025 – Present

- Built a cross-platform Flutter app backed by a Django REST API for GPS-geofenced NSTP attendance.
- Implemented live selfie/face verification, device binding, and instructor session tools.
- Published the app on Google Play and maintained it through regular updates.

IT Support Assistant — *Campus IT Services* 2024

- Assisted students and staff with account setup, software, and network issues.
- Documented common fixes to speed up recurring support requests.

PROJECTS

ISU NSTP Attendance — *Capstone Project* Flutter · Django REST · PostgreSQL

Cross-platform attendance system for Isabela State University that verifies check-ins using GPS geofencing, live selfie/face matching, and device binding. Includes instructor session tools, student excuse filing, and director reporting.
